“Paving and Compaction for Asphalt Pavements”

Waco	March 6
Beaumont	March 27
Houston	April 3
Paris	May 1
Garland	May 15
Buda	June 5

The Texas Asphalt Pavement Association (TXAPA) is hosting one day seminars which will demonstrate best practices on safety, planning, milling, paving and compaction for asphalt pavements. The seminars are intended for industry partners, city, county and consulting engineers who are interested in learning best practices by industry experts on building quality asphalt pavements. The safety portion will cover new technology and its function on a construction project; planning will explain how to plan for a successful job and identify areas prior to building the project; milling will cover best practices for creating smoothness and how the machine operates. Paving will take you through the entire construction phase and explain the best practices from start to finish. The seminar will end with compaction which covers rollers, compaction, QC testing and mat defects. Attendees will obtain six (6) professional development hours for attending the seminar upon request.

The seminars will be held from 9:00 a.m.-4:00 p.m. with an hour lunch break (on your own). SPACE IS LIMITED, SO PLEASE RESERVE YOUR SPACE RIGHT AWAY.

THERE IS NO COST FOR THESE SEMINARS
