## Break the Streak - Fatalities

November 7, 2016 marked a grim milestone for Texas - we have gone 16 years straight with daily fatalities on our roadways. That's right, at least one person has died each and every day on a Texas road since November 7, 2000.

Safe driving only requires a few simple tips:

- **Buckle Seatbelt** - All passengers need to be buckled, front and back seats.
- **Never Drink and Drive** - Drunk driving kills; get a sober ride home.
- **Pay Attention** - Put your phone away and avoid distractions.
- **Drive the Speed Limit** - Always follow speed limits and drive slower speeds when weather or other conditions warrant.

Remember: **YOU** hold the key to driving safely. **YOU** can help us
